

Nutri-Cal®

- High density caloric supplement with vitamins and minerals
- Highly palatable
- Readily digested
- Helps to stimulate appetite
- Excellent source of energy for debilitated animals
- Useful for post-surgical convalescence
- Convenient gel formulation
- Recognized as an Industry Standard

Nutri-Cal®

High density caloric supplement with added vitamins and minerals

Nutri-Cal® is a high caloric dietary supplement and a readily digestible source of vitamins and minerals in a palatable gel formulation.

Nutri-Cal® is excellent for pets requiring an additional source of calories without a large increase in food volume. Nutri-Cal® is also particularly suited for pets in convalescence following surgery and from debilitating disease or stress.

The easy-to-dispense gel formulation can be used alone or together with the regular diet to stimulate the animal's natural appetite. It requires no messy dilutions or mixing, and can be administered directly without the need of syringe, making it ideal for both clinical and dispensing uses.

For over 25 years, pets have found the taste irresistible, and veterinarians have relied on Nutri-Cal® to work where other products have failed. Nutri-Cal® is available in both tubes and pumps, for added convenience.

Nutri-Cal®	4.25 oz	2747
Nutri-Cal® push pump	3.2 oz	2740

Ingredients

Corn Syrup, Soybean Oil, Malt Syrup, Cod Liver Oil, Cane Molasses, Methylcellulose, Water, Peptones, dl-Alpha tocopheryl Acetate (Vit. E), Sodium Benzoate (Preservative), Manganese Sulfate, Iron Peptonate, Thiamine HCl, Nicotinamide, Calcium Pantothenate (source of Calcium and Pantothenic Acid), Magnesium Sulfate, Pyridoxine HCl, Vitamin A Palmitate, Potassium Iodide (Source of Iodine and Potassium), Riboflavin 5' Phosphate Sodium (Source of Vit. B2 and Phosphorus), Vitamin A Palmitate & D3 Concentrate, Folic Acid and Cyanocobalamin (Vit. B12).

Guaranteed analysis per teaspoon (6 grams)

Crude Protein (Min)	1.5%	Manganese (0.0176%)	1 mg
Crude Fat (Min)	34.5%	Potassium (0.0027%)	0.16 mg
Crude Fiber (Max)	3.7%	Vitamin A	1045 IU
Moisture (Max)	14%	Vitamin D3	60 IU
Calories (Calculated)	30	Vitamin E	6 IU
Calcium (Min) (0.0026%)	0.16 mg	Vitamin B1 (Thiamine HCl)	2 mg
Calcium (Max) (0.0033%)	0.20 mg	Vitamin B2 (Riboflavin)	0.2 mg
Phosphorus (0.0006%)	0.03 mg	Vitamin B6 (Pyridoxine HCl)	1 mg
Iron (0.0088%)	0.53 mg	Vitamin B12	2 mcg
Iodine (0.0088%)	0.53 mg	Folic Acid	0.2 mg
Magnesium (0.0067%)	0.42 mg	Nicotinamide	2 mg
		Pantothenic Acid	2 mg

Instructions for use

To provide supplemental caloric and nutritional intake in dogs and cats. Provides an added source of energy for hunting and working dogs. When the animal's caloric or nutritional intake is to be supplemented, give 1 1/2 teaspoons per 10 pounds of body weight daily. When animal is not consuming full food ration, give 3 teaspoons (one tablespoon) per 10 pounds of body weight daily.

Each teaspoon (6 grams) provides 30 calories. Nutri-Cal® is extremely palatable. To acquaint the animal with the flavor, place a small amount of Nutri-Cal® in the animal's mouth.
